FROM THE EDITOR

As we approach April 22nd, I wanted to take a moment to remind everyone about the importance of Earth Day. This annual event serves as a powerful reminder of our responsibility to protect the planet we all call home. The theme for Earth Day 2024 is "Invest in Our Planet." This is a call to action for all of us to make environmentally conscious choices and take steps to reduce our impact on the Earth's resources and ecosystems. Whether it's reducing energy usage, cutting down on plastic waste, or supporting sustainable agriculture, every action we take can make a difference.

I encourage you to find ways to get involved in Earth Day celebrations and activities in your community. This could mean participating in a local park or beach cleanup, attending an environmental education event, or simply spending time outdoors appreciating the natural beauty that surrounds us.

Let's also use this opportunity to educate our children about the importance of environmental stewardship. By instilling these values in the next generation, we can create a brighter, more sustainable future for our planet.

Earth Day is a time for all of us to come together and reaffirm our commitment to being responsible caretakers of this incredible world we live in. Let's make a conscious effort to reduce our environmental footprint and ensure that we leave behind a healthy planet for generations to come.

Happy Earth Day!

Morgana Calder

Much love,
EDITOR-IN-CHIEF

FROM DA BOSS LADY

Dear Beloved Seekers of Wyrd,

As we stand upon the threshold of the Vernal Equinox, let us continue to immerse ourselves in the mystical tapestry of the changing seasons. Though the equinox itself has passed, its resonance lingers, weaving its threads of balance and harmony throughout our lives. It is a time when the cosmic forces of light and darkness continue their sacred dance, reminding us of the eternal interplay between day and night.

In this enchanting phase of transition, as the Earth awakens fully from its slumber, let us remain attuned to the miracles unfolding around us. Witness the tender shoots pushing their way through the thawing earth, the symphony of birdsong that fills the air, and the gentle caress of sunlight painting the world in hues of gold. It is a season of renewal, of growth, and of boundless possibility.

Yet, as we marvel at the wonders of the outer world, let us not neglect the journey inward. Just as nature undergoes a process of cleansing and renewal, so too must we embark on our own path of inner alchemy. Let us release the burdens that weigh heavy on our spirits and cast off the veils of illusion that cloud our perception. Through sacred practices of introspection and meditation, let us uncover the hidden depths of our souls and reclaim the magic that slumbers within.

As we navigate this sacred season, let us honor the ancient traditions that have guided humanity through the ages. From the mystical rites of the spring equinox to the profound mysteries of Easter, each tradition carries within it the wisdom of generations past and the promise of a brighter future.

May this season be a time of profound transformation and awakening for each of us. Let us continue to weave our dreams into the tapestry of existence, dancing to the rhythm of the stars as we journey ever deeper into the heart of the mystery.

With boundless love and gratitude,

Hadley

Hadley Thorne

Founder of Wyrd Realities

a part of the **wyrd-verse**

Watching Wyrld features horror, science fiction, survivalist, paranormal, and urban fantasy authors Scott Baker, Allen Gamboa, Rich Restucci, and Hadley Thorne as they discuss, dissect, and debate movies based on predetermined themes. Wyrld Realities posts selected films to its Facebook community a week before the show to encourage participation. Hosts interact with Wyrld Realities fans during the live stream chat, creating a fun atmosphere.

This month, the Watching Wyrld gang will be watching and offering their thoughts on the following movies:

Week one is all about "Force 10 from Navarone". "Force 10 from Navarone" is a World War II action film released in 1978. It is a sequel to the 1961 film "The Guns of Navarone." Set in Yugoslavia in 1943, it follows a group of Allied commandos tasked with destroying a bridge vital to the Nazi war effort. The film features an ensemble cast, including Harrison Ford and Robert Shaw.

Join us for a yearly tradition...Hadley's Birthday Celebration!! For several years we've celebrated Hadley's birthday on Watching Wyrld with a special movie theme. Join us and see what she comes up with this time!!

Week three, we are watching "The Warriors". "The Warriors" is a cult classic film released in 1979, directed by Walter Hill. Set in New York City, the movie follows a gang called "The Warriors" who must journey back to their home turf in Coney Island after being wrongly accused of murdering a rival gang leader. As they navigate through hostile gang territory, they face various obstacles and encounters with other gangs. The film is known for its stylized action sequences, colorful characters, and memorable dialogue, depicting the gritty urban landscape of the late 1970s.

And finally, week four brings us John Carpenter's "The Thing". "The Thing" is a 1982 science fiction horror film directed by John Carpenter. Set in Antarctica, the movie follows a group of researchers who encounter a shape-shifting alien organism that can mimic any living being it absorbs. As paranoia and distrust grow among the group, they struggle to identify who among them is human and who might be the alien impostor. "The Thing" is considered a landmark in the horror genre.

COMING UP ON WATCHING WYRD

Join Morgana Calder and her cohorts, Steven Hill, Cecil Fletcher, Henry Tully, and Hadley Thorne on Friday nights as they discuss anomalous phenomena...the strange, the curious, the extraordinary, the bizarre...throw in the occasional conspiracy theory, and you've got the Wyrld Awakenings crew!

NIKOLA TESLA

Nikola Tesla (1856-1943) was a Serbian-American inventor, electrical engineer, and futurist.

He designed and patented the first alternating current (AC) electric motor, making possible the distribution of electricity over long distances. Tesla championed the use of alternating current over direct current for electrical power transmission, engaging in the famous "War of Currents" with Thomas Edison.

He invented the Tesla coil, an influential electrical circuit used to produce high-voltage, high-frequency alternating-current electricity.

Tesla conducted pioneering experiments in the generation and transmission of radio waves, building the first radio transmitters.

He produced some of the earliest X-ray images with his experimental vacuum tubes.

It is believed that many of Tesla's scientific notes and research papers went missing after his death in 1943. Some theorists speculate that his work contained plans for powerful inventions like death rays, free energy devices or even anti-gravity technologies that were confiscated by the government.

Tesla was a visionary who imagined many concepts that were revolutionary for his time, including wireless power transmission. Though criticized for his eccentric personality, he is regarded as one of the most influential inventors and engineers who helped shape the modern age of electricity.

REPTILIANS

Reptilians are reptile-like humanoid beings from another planet or dimension that have infiltrated human society and control powerful organizations. They are an advanced reptilian race, sometimes described as reptilian humanoids with lizard-like features or a humanoid appearance that can shapeshift into a reptilian form. Originating from the star systems Alpha Draconis or Orion, they came to Earth for conquest and now covertly control many of the world's governments, banking systems, military forces and industries.

High-ranking world leaders like presidents, royalty and celebrities are believed to be reptilian beings or are controlled by reptilians .

They feed off negative energy like fear and consume human beings, especially children. Some allege they are Satanic or practice ritual sacrifices.

Their goal is to keep humans subjugated through engineered wars, religions, poverty and other mechanisms of societal control.

STATE STRANGENESS

WYRD WYOMING

With its rugged frontier history, wide open spaces, and Native American folklore, Wyoming has birthed many cryptozoological and supernatural legends over the years. Some of the subjects we may examine are the Jackalope, who is said to roam the hills and prairies of Wyoming; Wyoming's Bermuda Triangle, an area spanning from Red Desert to Emigrant Gap and known for UFO activity, cattle mutilations, and unexplained disappearances; The Curse of Natrona County, said to be cursed due to a broken Native American treaty; and the Frozen Road Ghost, where a ghostly figure appears at night asking for a ride.

WYRD NEW HAMPSHIRE

And finally, from lingering Native American curses to alien encounters, New Hampshire's folklore is filled with intriguing and eerie urban legends rooted in its colonial history and rural wilderness. Some of the more intriguing are the cursed Rogers Rangers, said to afflict the descendants of the Rogers Ranges, a colonial force from the French Indian war who were brutal in their attacks; The Wood Child of Bennington, a feral child allegedly raised by wolves; President Franklin Pierce's haunted home, haunted by the ghosts of his wife and children; and The Exeter Bathroom Putty Mystery, where weird putty-like substance was reportedly falling from the ceilings and walls in Exeter homes.

FOLKING WYRD INCLUDES CECIL FLETCHER, HENRY TULLY, STEVEN HILL, HADLEY THORNE, AND MORGANA CALDER.

Recently on Folking Wyrd, Wyrdling Steven Hill took us on a walkthrough in Arkansas looking for Bigfoot signs.

There are many signs you can look for when searching for the big guy. Bigfoot is thought to construct rudimentary ground nests made of broken branches, bushes, and grass potentially found in remote forest areas. Bent or twisted trees at around 8-10 feet high, as well as ground scratches, may indicate makeshift shelters or markers used by Bigfoot. Any strange tufts or strands of hair caught on branches or rocks in wilderness areas that seem too large and coarse for known animals.

Piles of sampled fruits, nuts, or other edibles collected in one area could suggest food gathering by a higher intelligence.

Distinct whooping, howling, or other loud inexplicable cries carrying over long distances in remote forests.

Tully then took us on a tour of the USS Schem.

Tucked away in a small creek about 25 miles downstream from Cincinnati, an old ship known as Kentucky's abandoned ghost ship has been slowly rusting away, virtually hidden behind trees, driftwood, and massive reeds. Only accessible by hiking across a field and paddling out, this amazing wreck is the Celt, though she's gone by many names over her incredible century-long story.

Today, observers can paddle up the creek or view her crumbling frame from the river to experience the sheer abandoned awesomeness of Kentucky's ghost ship that had such an extraordinarily storied past.

RECENTLY ON FOLKING WYRD

Introducing
The new, interactive faux tutorial:

WRITE WITH ME

Hosted by Joseph Hansen
The former host of
Wyrd Reality's *Lowballing*

Author of the nine book series, *No Mans Land*, published through Devil Dog Press. A collaborative author of six books, in the popular *Five Roads to Texas* series. The author of four standalone novels titled, *Sonny* (a true to life novel with an unseemly protagonist), *Wayward Son* (a science fiction novel involving time travel and behavioral modification), *Cataclysm, an age of legend* (a fantasy novel with elves, gnomes dwarves and all of your favorite legendary beings), and, coming soon, *God Queen* (when unfathomable fame is the target of human traffickers).

Hi, I'm Joe, formerly known as H.J. Harry. H.J. unfortunately, couldn't sell a book if his life depended on it, so I had him killed, ended, demolished, murdered, obliterated or something, in order to cause his demise. So many words to describe death, all of them are good to be used in numerous situations, but when is the right time, and which is the right word?

These are some of the things that we will talk about in *Write With Me*, but our number one goal, is to get words on paper.

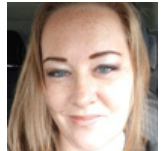

So join me for the first few episodes, where we will work out our first page and the value of the first line and what kind of impact that may bring.

Be prepared to write your own novel, so have a word program ready, (I will be using Scrivner, and will share with you the values of using such a program) but Word is fine as is the Apple equivalent, just be ready to tell your story in any genre that you want.

Stay tuned to the Wyrdverse for dates and times or contact Joe via direct message.

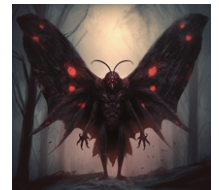

Pull up a log, roast a marshmallow and settle in as these two blondes talk spooky tales and classic horror icons. Of course, as the fire gets low and the night wears on, you never know who else may drop by. Exciting guests, perky blondes and sinister tales make this podcast as good as a double-stacked S'more.

Jenn Amato

Join the gang on Tuesday, April 9th as they talk with author, Jenn Amato.

Then on the 23rd, they will be exploring the legend of the Mothman, a legendary cryptid that gained popularity after numerous alleged sightings in the Point Pleasant area of West Virginia between November 1966 and December 1967.

Where in the Folk is a collaboration from Wyrdlings David Reed, Henry Tully, and Cecil Fletcher. Find them on Bitchute @whereinthefolk

Tune in to Where in the Folk this week as we talk about ALL of the crazy stuff going on currently in the world and what we have to look forward to upcoming in April, including the growing coverage surrounding the solar eclipse on April 8th.

Join in on the conversation with us LIVE on Fridays at 8pm EST and thanks so much for watching, because we're watching you!

WHERE IN THE FOLK

The Bizarre Tale of Natalia Grace

"The Bizarre Tale of Natalia Grace" refers to a controversial case involving Natalia Grace, a Ukrainian-born girl adopted by an American couple. The couple claimed Natalia was a child when they adopted her, only to allege later that she was an adult posing as a child. The story gained media attention due to conflicting narratives about Natalia's age, her medical condition, and accusations of neglect and abandonment. Authorities investigated, and Natalia's true age and circumstances remained disputed, leading to a perplexing and widely discussed saga.

This all female panel is hosted by Finley Jones. The ladies choose a documentary to watch, then they come together as a group to discuss. Mostly following stories involving women, they will occasionally delve into other true stories of interest.

MEET OUR WYRD PARTNERS

We couldn't have better partners!
Thanks for being a part of the Wyrd team!

At 32 years old, Stephen Landry resides in Nashville, TN, alongside his fiancée, two rescued dogs, and a cat. His creative pursuits primarily revolve around character-driven science fiction, weaving elements of space opera, fantasy, horror, and time travel, alongside ventures into LitRPG.

When Stephen isn't absorbed in writing, he dedicates his time to diverse graphic design projects. His clientele spans various domains, encompassing fellow authors, publishing firms, independent movie studios, and, more recently, collaborations with select video game companies.

Lauren Smith serves as the host of Nite Callers Bigfoot Radio (NCBR), a long-standing podcast that has aired for more than a decade, boasting over 300 episodes. NCBR stands out as a beloved podcast among bigfoot enthusiasts, featuring interviews with researchers and witnesses from various corners of the globe.

Bringing a distinctive perspective to the show, Lauren's background is deeply rooted in second-generation bigfoot research. As the daughter of a seasoned female bigfoot researcher in the southern regions, she has been involved in field research since her early teenage years. To tune in to Nite Callers Bigfoot Radio, you can catch the show live on YouTube.

Paul Cousins, the founder and creative mind behind Funder Games, favors the path of an entrepreneur over that of an employee.

According to him, successfully steering a startup like Funder Games demands two crucial elements: a tablespoon of resilience and a dash of daring.

He emphasizes, "The journey as an entrepreneur is demanding. It's about recognizing your self-worth, persisting through failures, as they all contribute to eventual success."

The Greyhorn Pagans Tribe is a global community welcoming pagans, heathens, witches, and seekers of spiritual wisdom. It's a sanctuary for learning, spirited discussions, and open debates.

However, it's not solely about learning and connection. The Tribe values casual camaraderie, fostering a space for pure enjoyment and the potential for lifelong friendships. Whether seeking support or positive energy, reaching out is encouraged – there's no hesitation in asking for help or sharing good vibes. In this inclusive community, no topic is off-limits, but mutual respect remains paramount.

Christian Bentulan, a Digital Creator, specializes in crafting stunning book covers. His primary goal is to ensure that your diligently crafted book receives the exceptional cover it deserves. Recognizing your limitations and time constraints, he collaborates closely to meet your deadlines.

Known for maintaining an exceptionally high standard in his work, Christian wholeheartedly dedicates himself to every project he undertakes. His portfolio boasts covers for numerous esteemed authors, including several USA Today and NY Times bestsellers.

Metaphysical Mississippi serves as a hub for all things metaphysical across Mississippi. Featuring a Calendar of Events and a Directory of Metaphysical Businesses and Services, they convene monthly in the Jackson metro area to foster networking and support.

Their inclusive monthly gatherings are open to all Mississippi residents with a penchant for the metaphysical. Led by Krista Tew, these meetings provide a platform for discussions and networking, aimed at connecting like-minded individuals in the community of light-workers. Attendees are encouraged to bring their business cards, brochures, flyers, and event announcements related to the metaphysical realm.

The primary focus of these meetups is to cultivate an atmosphere of encouragement and empowerment among participants, fostering a space where individuals can support one another and build a strong metaphysical community.

Cryptid CORNER

SHUNKA WARAKIN

The Shunka Warakin, also known as Shunka Warak'in, is a creature referenced in American folklore, purported to resemble a large caniform like a wolf, a feliform such as a hyena, or a hybrid of both. Cryptozoologist Loren Coleman suggests that the Shunka Warakin remains an enigmatic figure absent from contemporary records. Its name, translating to "carries off dogs," hints at its predatory nature. Coleman points to an incident in 1886 involving an animal shot by Israel Ammon Hutchins on what is now the Sun Ranch in Montana, suggesting it could be an instance of this elusive creature. The taxidermist Joseph Sherwood acquired the specimen from Hutchins and displayed it in his store/museum in Henry's Lake, Idaho, dubbing it "Ringdocus." Despite being the sole physical evidence, this stuffed trophy was never subjected to formal scientific examination and was lost for a period before resurfacing in December 2007.

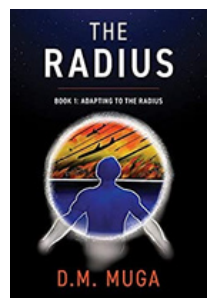

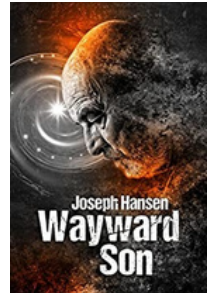

A cryptid is a creature or entity whose existence is suggested by anecdotal evidence, folklore, or alleged sightings, but lacks conclusive scientific evidence for its existence. These entities often exist in the realm of myth, legend, or unverified reports. Examples of cryptids include creatures like Bigfoot, the Loch Ness Monster, the Chupacabra, Mothman, and many others.

Cryptids can be animals, plants, or even beings with supernatural or paranormal attributes. They're subjects of fascination and mystery, often sparking curiosity and investigations by cryptozoologists and enthusiasts seeking to prove or debunk their existence.

MEET THE WYRD KIDS

ABOUT THE WYRD-VERSE

The Wyrd Realities Network was founded on the idea that we all have a little bit of weirdness in us. Our podcast provides a lively platform for creative minds to share their experiences, passions, and stories related to the paranormal, history, science, conspiracies, and folklore. We believe that the best way to appreciate the unknown is to approach it with curiosity, respect, and open-mindedness. We invite you to join our community of explorers and share your perspectives on the weirdness of reality.

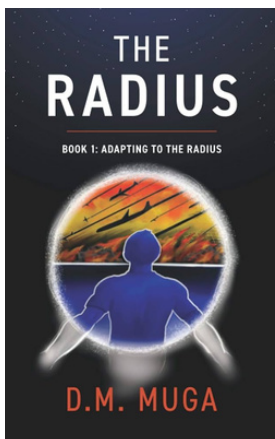

30 Coins

30 Coins is a trippy Spanish horror series on MAX. It take place in a small Spanish village where all Hell is breaking loose over the 30 coins Judas was paid to betray Christ. A cult within the Catholic Church is after the last one and the evil power it holds.

From Spain to Rome to war torn Syria the search goes on for the last coin. A rouge priest, the local veterinarian, and the mayor of the small, besieged ,town desperately struggle to keep the satanic forces at bay. There's plenty of gore, creepy monsters, intrigue , sex, and world traveling to go around. Season 2 stars Paul Giamatti. Perfect for the Halloween season . The first season is Spanish with English subtitles , I'm really hoping season 2 is in English . 4/5. That's my opinion and well..streaming on MAX and Prime.

WHAT WE ARE READING

The Radius

David Muga

5 stars is not enough!

D.M. Muga's debut novel THE RADIUS: BOOK 1 ADAPTING TO THE RADIUS is a constant sci-fi thrill ride which you will want to see to the end. Muga ties both the post-apocalyptic and preparedness genres together using the most interesting and unique premise. Very detailed and quite entertaining, this offering will appeal to those who enjoy genre-bending science fiction. Don't wait, pick this one up today.

~Rich Restucci

FOR THE SENSES

Oriental False Hawksbeard_Youngia Japonica

I don't know about where you live, but at my house right now, False Hawksbeard is jumping. This stuff is all over the place.

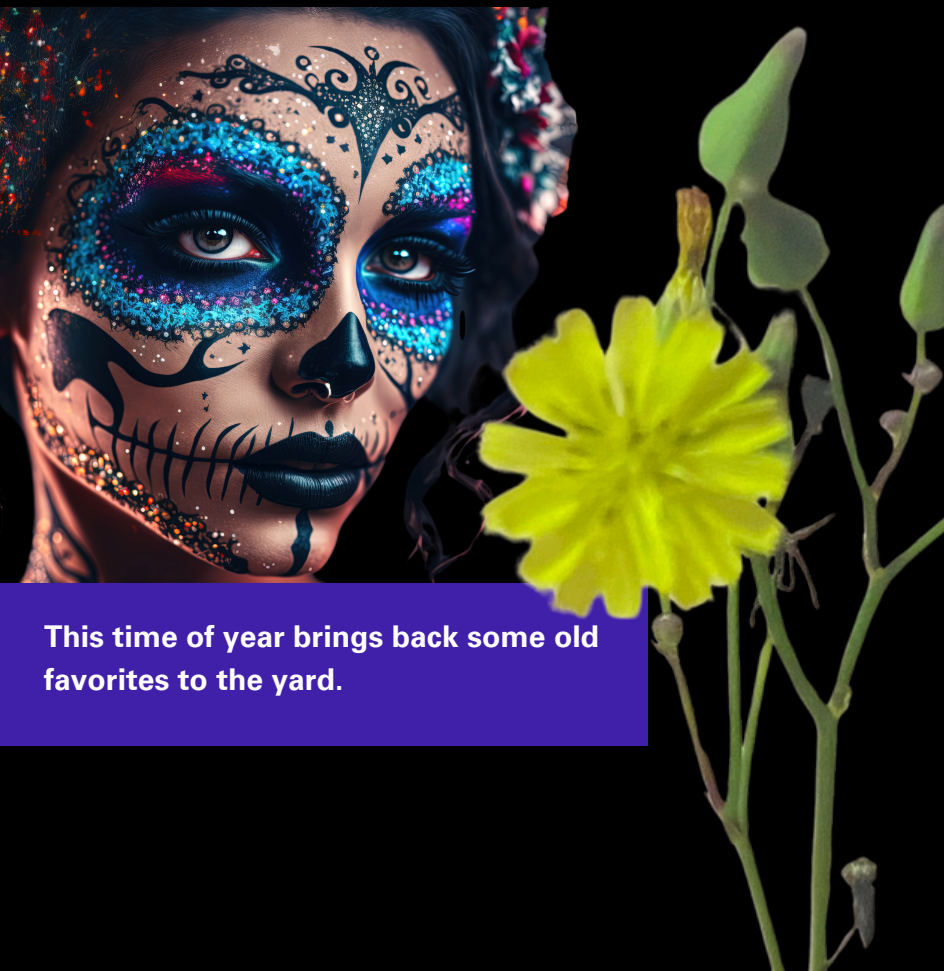

Hawksbeard, in the Asteraceae (daisy) family, is a weedy summer annual herb that can be found growing as an agricultural or environmental weed, and often persisting year-round. Seedlings form a rosette resembling a small sowthistle (*Sonchus* spp.) but leaves are hairy. Upper leaves are more linear and lack a stalk, and a milky sap is emitted when leaves are torn. In contrast to dandelion, narrowleaf hawksbeard plants have leaves on the flowering stem, and plants can become highly branched. In the rosette stage (i.e., before the flowering stem has bolted upward), it is much trickier to differentiate between narrowleaf hawksbeard and dandelion.

The inflorescence stalk is generally leafless (but occasionally with up to 3 leaves), branched at the top, and 6 to 15 inches (occasionally to 3 feet) tall. Flowers are yellow, and dandelion-like but only about 1/2 inch in diameter. Seed heads are dandelion-like, about 1/4 to 1/2 inches in diameter, and seeds are wind dispersed.

Young leaves and young plant - can be eaten raw or cooked.

The plant is antitussive and febrifuge. It is also used in the treatment of boils and snakebites. Tests have shown it to have compounds that inhibit the growth of certain cancer cells, including chronic myelogenous leukemia and promyelocytic leukemia.

In traditional medicine, Asiatic false hawksbeard has been used as an antidote against poison, as a diuretic, to relieve coughing and to reduce fevers. It is also said to have antibacterial and anti-inflammatory uses.

This time of year brings back some old favorites to the yard.

pink Full Moon ✨

April's Full Moon is called the Pink Moon. In North America, this is when the herb moss pink, or wild ground phlox blooms in widespread joyfulness. This is also the month when many fish swim upstream to spawn. It is a time of playfulness and youth for Nature, and it can be for you also!

When the Pink Moon is the first full moon of the spring season, it is also called a "Paschal Moon." Easter Sunday always comes the Sunday following the Paschal Moon. Like full moons themselves, Easter is typically a time to think about rebirth.
